

# New Central Plastics Electrofusion Processor Introduction

+GF+

**MSA 340  
Electrofusion Control Unit**

GF Piping Systems

# New Central Plastics Electrofusion Processor

**Electrofusion Control Unit incorporates the following features:**

- **Enhanced 4 line display**
- **Improved transformer**  
*Will fuse couplings up to 26"*
- **Three fusion data input modes**  
*CP Resistor Read*  
*Bar-Code*  
*Manual*
- **Field Calibratable**
- **USB Interface**
- **GPS**
- **Increased Traceability**

# New Central Plastics Electrofusion Processor

## Traceability Options include:

- Processor Serial Number
- Date/Time
- Fusion Cycle Number
- Fusion Time
- Fusion Voltage
- Fusion Current
- Cooling Time
- Error Number
- Ambient Temperature
- Fitting Manufacturer
- Fitting Type and Size
- Fitting Resistance
- Starting Primary Voltage
- Next Revision Date
- GPS Coordinates
- Operator I.D.
- Job Number
- Pipe I.D.
- Data Input
